DANTE CHINNI

Our Patchwork Nation

The Surprising Truth About the “Real” America

A provocative counterargument to the widely accepted blue/red divide, *Our Patchwork Nation* provides a new way of examining our country’s multi-dimensional political spectrum. Using on-the-ground reporting and statistical analysis, political geographer James Gimpel and journalist Dante Chinni identify twelve distinct types of communities whose differences and specific concerns shed light on the subtle distinctions in how Americans vote, shop, and otherwise behave.

“Brings a fascinating insight into what makes Americans different these days.”—*The Miami Herald*

“The authors convincingly argue that economic, cultural, and political realities differ—and sometimes in surprising ways—depending on whether you live in Ann Arbor, Michigan, a Campus and Careers community, or Burley, Idaho, a Mormon Outpost.”—*The Christian Science Monitor*

SHANE HARRIS

The Watchers

The Rise of America’s Surveillance State

Harris charts the rise of America’s surveillance state over the past twenty-five years and highlights a dangerous paradox: our government’s strategy has made it harder to catch terrorists and easier to spy on the rest of us.

The nation needs to do better, and Harris’ book is rich background to that task.”—Gregory F. Tverton, Director, Center for Global Risk and Security, RAND Corporation

“Harris displays an exquisite understanding of the intricacies of his topic and a remarkable sensitivity to the genuine concerns of the watchers and their critics....A sharply written, wise analysis of the complex mashup of electronic sleuthing, law, policy and culture.”—*Kirkus Reviews*
